**“1ST GAME COVERALL”** We start each Wednesday night at 7:00 with a special “COVERALL” game which pays \$200 to the winner. Cards for this game may be purchased at the window to the right as you enter the hall. Cards are \$1 each or 6 for \$5. Prior to the start of the game the announcer will announce two “wild numbers”: for example “3” and “5”! This means that all numbers ending with “3” or “5” can be marked on your card. This includes the numbers 3,5,13,15,23,25,33,35,43,45,53,55,63,65,73 & 75. This shortens the longevity of the 1st game. These “wild numbers” only apply to the “First Game” and are randomly redrawn each week.

**“DOUBLE ACTION”** For players who come early, we play a “3 number game” called Double Action or (Lightning Bingo) This game pays \$75.00 and you may purchase game cards at the table to the left as you enter the hall. Prices are \$1.00 each or 6 for \$5.00. We play as many of these games as we can sell tickets. The last of these games is called immediately after the 10 minute break.

**“STARBURST”** is a special game that is played following our break. It’s jackpot starts at \$500 and increases by \$100 each month until someone wins it! It is a coverall game and pays ½ of the money collected for that evening. To win the jackpot the player must go “bingo” on the number highlighted on their card by a “star”. Cards are sold at a table to the left of the bar. Cards are \$1 each or six cards for \$5

**“COLORBALL”** is the second last game of the evening. Cards are sold at table to the left as you enter the hall. To win this game you have to spell out the words “KCHILAND” by marking the called numbers which are coded by a color.

For example ( “K red” or “C blue”}. This game pays \$300 to the first one to complete a horizontal row of “KCHILAND”. There are seven rows per card and eight different colors. The jackpot starts at \$500 and is increased every week by \$25 until it is won. To win the jackpot you must go out on the same color as the first number called. Cards are \$6 each or 3 for \$13. They are available as pre-printed cards or blank where you select the color for each letter (this card has a yellow 2nd sheet which must be returned to the colorball table after you have marked your selection of colors and before the start of the game). There is also a small sheet where you make your selection which only has one row which is available for \$1 or \$2 if it is validated.

The last game of the evening is played on the 24th sheet of your game card. It is a coverall game which pays \$500 if you go out on the specified number or before; which is displayed on the announcers stand. If you go out on a number larger than the specified number the payout is \$100.
